Course Overview

The overall goal of sixth grade writing is to build basic writing skills so that students can express their ideas clearly across all disciplines. The students will work to write clear and organized academic paragraphs and essays appropriate for their audience and purpose. They will revise and edit their work to improve its content and ensure that their grammar, mechanics, and spelling are correct. The students will also express their ideas through creative writing, including poetry, stories, and scripts, and they will have the opportunity to present their work to peers and other audiences. Additionally, through all of their written assignments and class participation, the students will work to develop their voice and style.

Primary Performance Standards

By the end of the year, students will be expected to be able to:

- Write clear, organized, and purposeful paragraphs and multi-paragraph essays
- Revise and edit all writing effectively
- Use correct grammar, mechanics, and spelling when writing
- Present their work to an audience, speaking effectively in a variety of settings
- Identify, define, and use the eight parts of speech
- Identify and use correct sentence structure
