2021 School Report Card

Families and communities are critical partners to a school's success. Just as a student's report card shows how they are performing, the school report card shows how a school is performing in multiple areas. It shows the school's strengths and the challenges that need to be addressed to ensure the school is meeting the needs of all students.

Student Progress

Student growth measures the amount of academic progress a student made over the year, based on MCAS. It compares a student's MCAS performance to other students with similar past MCAS scores. Growth is reported on a scale from 1 to 99, with lower numbers representing lower progress and higher numbers representing higher progress. An average growth score between 40 and 60 means that the district or school is making typical progress.

▶ How is our school doing in the state's accountability system?
Accountability

An accountability system brings together a set of measures in order to provide clear, actionable information about district and school performance. In Massachusetts, accountability results are calculated using information related to student performance on state tests, chronic absenteeism, high school completion, and advanced coursework completion.

Note: The Massachusetts Department of Elementary and Secondary Education did not issue school or district accountability determinations for the 2020-2021 school year.
